

Table of Contents

Dynamic Behaviour of Western Johore Peat, Malaysia <i>Adnan Zainorabidin, Siti Nurul Aini Zolkefle</i>	1
Reinforcement of Crushed South African Greywacke Aggregate using Geogrid Material <i>J. Oriokot, D. Kalumba, F. C. Chebet</i>	7
Effect of Reinforcement on Flexural Behavior of RCC Beam with Opening <i>R. N. Khapre, P. D. Pachpor</i>	12
Numerical modelling and the analytical assessment of a steel planar CHS joint <i>Anežka Jurčíková, Miroslav Rosmanit</i>	17
The use of linear fracture mechanics to estimate the service life of the historic riveted crane runway <i>Vít Křivý, Miroslav Mynarz, Anežka Jurčíková</i>	23
New Approach LOS Model for Sidewalks: Case Study Burdur Streets in Turkey <i>İ. Erkan, A. Ş. Erkan</i>	28
A Simple Hysteretic Model of Structural Steel for Damage Evaluation <i>Yu Jiao, Satoshi Yamada</i>	33
Use of Recycled tire in concrete for partial aggregate replacement <i>Muhammad Bilal Waris, Nehal Ali and Khalifa Al-Jabri</i>	39
Durability studies on high strength recycled aggregate concrete <i>K. Jagannadha Rao, M.V.S.S.Sastri</i>	45
Managing Landslide Risks by Using Fault Tree Logics <i>Sadaf Qasim, Indra Harahap, Syed Baharom and Arjumand Masood</i>	51
Development of corrosion processes on weathering steel railway bridge in Prague <i>Viktor Urban, Vit Krivy</i>	56
Effect of Marine Environment on Performance of RC Columns Wrapped with CFRP <i>Alaa Alsaad, Gulan Hassan, Yassamin Alogaidi</i>	62
Pre-construction Durability Index for Reinforced Concrete Structure <i>Muhammad Saleem</i>	70
Chip Humidity Influence on Kinetics of Matrix Hydration Process and Properties of Cement-Bonded Particleboards	78

Tomáš Melichar, Jiří Bydžovský

Parametric Regression Model and ANN (Artificial Neural Network) approach in predicting concrete compressive strength by SonReb method <i>Lucio Nobile, Mario Bonagura</i>	85
Numerical investigation on a new CFRP technology for the upgrading of the RC framed structures <i>Laura Anania and Giuseppe D'Agata</i>	90
Experimental analysis of vehicle vibration on a composite bridge <i>Saidi abdelkrim, Hamouine abdelmadjid, Abdellatif megnounif</i>	101
AuthorIndex	107
